

# Missed Opportunity in Maternal and Infant

22<sup>nd</sup> January 2016  
Reef Hotel Mombasa

**MOMI DISSEMINATION CONFERENCE  
22nd JAN 2016 AT THE REEF HOTEL MOMBASA KENYA  
(KENYA DELEGATES)**

Prof. Qureshi, member of the advisory committee for the Missed Opportunities in Maternal and Infant (MOMI) health project attended the meeting in Mombasa. This was a multi-country operational research consortium aimed at improving maternal and newborn morbidity and mortality through a focus on missed opportunities in the postpartum period. The project's interventions focused on combined health facility and community-based approaches. This was an end of project findings by the four countries that have been conducting an intervention on improving their postnatal outcomes. There were participants from Burkina Faso, Kenya, Malawi and Mozambique.
